Make a Handsome Lawn

THE DAYS OF USING SOD ARE OVER

Tilton's "Cleveland Parks" Lawn Seed

A pure, clean, heavy mixture of the best varieties of grass that are adapted to produce a compact sod, as soft as velvet, and as green "as the shores of old Erin."

Has a Reputation Absolutely Its Own

Tilton's "Cleveland Parks" Lawn Seed will produce a close, velvety turf in a few weeks' time. No better mixture offered anywhere. Cleveland Parks and Private Lawns noted all over the world are sown with it.

1 lb. pkgs.	25c.	1 bus. 18 lbs.	\$3.00
------------------	------	---------------------	--------

To those who have never used this mixture of grass seed, we want to make the point more clear that there's more deception practiced in the sale of Lawn Seed, than in any other class of seed sold.

It is true that you can buy lawn seed at any price, but the best is the only kind that's cheap; we know you cannot afford to throw your time and money away experimenting with seed of questionable quality, and we are frank to tell you—Get THE BEST; it costs but little more to begin with, but the results are the kind you are looking for.

Choice Mixed Lawn Seed

A Good Mixture at a Low Price.

Dickey's Bug Death Duster25

Bug Death is never sold in bulk.

WHAT BUG DEATH WILL DO

Bug Death will kill the potato, squash and cucumber bugs, currant, gooseberry and tomato worms, and all bugs and worms that chew the leaves of plants, trees and vines.

Bug Death when applied liberally prevents blight (rust). Excellent results are obtained by the addition of Bordeaux mixture, and we strongly recommend its use.

Bug Death can be applied dry just as it comes from the original package, or it can be mixed with water and sprayed on the vines with any sprayer fitted with an agitator and adapted for that purpose.

We ask all who have not given it a trial to do so. Follow directions and you will find it of great value, not only as an insecticide but as a plant food.

Insist on having Bug Death. Do not take an inferior article because your merchant tells you it is just as good.

Feeds the Plants. The In-
